

MUSICAL MATH

Write the number of beats below the notes and rests:

$\frac{1}{2}$ $\frac{1}{2}$ 1 1 1 $1\frac{1}{2}$ 2 2 3 1

Each cube below should add up to 15 beats. Draw one of these missing notes to complete each cube:

My piano teacher holds quarterly "piano parties" where students gather together to play our songs and pieces. It's great to see other students' progress because it reminds me that I too, am steadily progressing. I take notes on song selection, the lively discussions, the delicious potluck brunch, and chronicle it on facebook! In spite of feeling nervous while we play, it's such a pleasure to share our music together. I leave feeling proud and inspired. - Ronna
