

KEYBOARD NUMBER CHART

On an 88-key piano or keyboard, the lowest note is A1, and the numbers increase with each successive A

- **Play every A** on your keyboard, ascending, and descending. Make a mental note that A is between the 2nd and 3rd of the 3-black key group. Notice that all A's have a similar sound. Do the same with **every B, C, D, E, F, and G** making note of the location and sound of each key. **Begin and end your practice sessions with this exercise** until you know the location of all the keys.
- Play and sing every **A B C** on your keyboard, then every **F G A, D E F, and G A B**
- What is the highest key on your keyboard? (letter and number) Answer: _____
